Technical Memorandum 7 HQ Comments

Autar Rampertaap, Chief Rocky Flats Branch, EM-453

We are responding to your March 31, 1993, comments on the Operable Unit 2 (903 Pad, Mound, East Trenches) Technical Memorandum 7 (TM7), Surface Soil Sampling and Analysis Plan.

We had requested all comments on the draft TM7 by January 29, 1993. Since we did not get your comments until the end of March, we had already revised the draft and submitted it to the Environmental Protection Agency and Colorado Department of Health for approval. We have attached responses to your comments on the document.

If you have any questions, please contact Scott Grace of my staff at extension 7199.

Richard J. Schassburger
Acting Director
Environmental Restoration Division
